HOW TO USE

The application is approximately 375 MB that requires a wifi connection. After it is downloaded to a device it will not require a data connection unless an update is required.

The language app home screen contains **buttons for Language, Culture Notes, Search, and Credits.**

Language – (category options: Learn, Games, Quizzes) The **Language tab** contains approximately 526 words and phrases which are separated into 33 categories.

- **Listen & Learn:** Each category allows users to learn the language by listening to a word or phrase, reading the orthography, and self-recording for playback and audio learning.
- **Play Games:** these increase in intensity from easy to hard.
- **Test Yourself:** After familiarizing with the words and phrases contained in each category there are corresponding quizzes to self-test. Quizzes test listening, speaking, and reading skills.

Culture Notes – (category options: **Audio, Video, Images**) The **Culture Notes tab** contains approximately 15 files. Users can

- Listen to a real **Osage language Speech** delivered in June 1965 by an Osage elder
- Learn the **Counting Song**
- Access **Map** of Osage ancestral territories
- **Zoom-in on Images** - the maps and paintings - view by tapping on the photos in the Images category

Search –Search for any entry via the Search tab.

- Tap “Search” and you will be directed to an alphabetized list of all entries contained within the app
- Scroll through the list or type a specific word or phrase
